Ideal for first-time users: the ski-tour nature trail

The Touring Nature Trail in the Tiefbrunnau area of Faistenau offers ideal conditions for one to get to know this new terrain. It leads above 650 altitude metres and takes around 2 ½ to 3 hours on the Loibersbacherhöhe. A diagram map and seven interactive boards have been erected on the themes of safety, technique, tactic, territory and snow conditions.

On foot or with two horse-power

Cleared winter hiking paths and a wonderful snow-shoe route are more than inviting to discover and enjoy Nature at its best. With a horse-drawn sleigh ride enjoy the joys of winter in the Fuschlsee region.

Perfect infrastructure in Faistenau for cross-country skiing and biathlon

In the cross-country village of Faistenau there are 60 kilometres of cross-country trails which are daily freshly prepared. The practical light system on the website www.langlaufdorf.at shows the actual daily status of the trails. The ten kilometer long night trail is floodlit until 9 p.m. daily. Together with cross-country tuition, biathlon courses and workshops for children and adults are offered. But not only in Faistenau also in the other towns in the Fuschlsee region: Hintersee, Ebenau, Hof & Koppl you can find beautiful trails.

Racing with the toboggan and the snow-tube

The natural toboggan runs in the Tiefbrunnau promise a lot of fun. Sledges can be hired for a small fee. Just a few minutes from the centre of Faistenau one finds the snow-tubing run. Three snow channels, each with a length of 170 metres, guarantee fun for all ages. One is drawn uphill with the aid of a drag lift and for night owls the complex is floodlit.
